Marine Area 13 South Puget Sound

Marine Area 13 (South Puget Sound) encompasses all waters south of the Tacoma Narrows Bridge. These waters are protected from the weather, which enables small boat access for fishing. There are also great opportunities to fish from shore and at various piers. Area 13 is the only body of water in the state where you can fish for salmon year-round and use your two-pole endorsement. During odd years additional pink salmon can be kept each day to allow anglers to keep a few more fish for the grill or smoker.

Major Fishing Areas & Opportunities

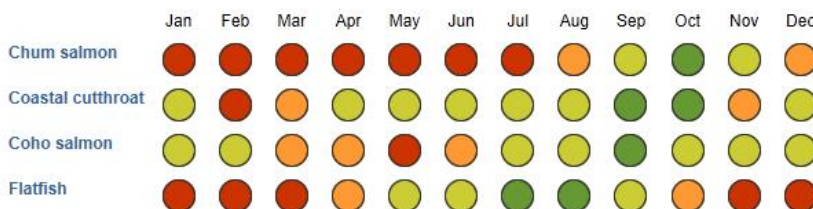

Fish Trap

Jigging and trolling are common methods used to catch hatchery Chinook returning in the late summer/early fall.

Accessible by Boat

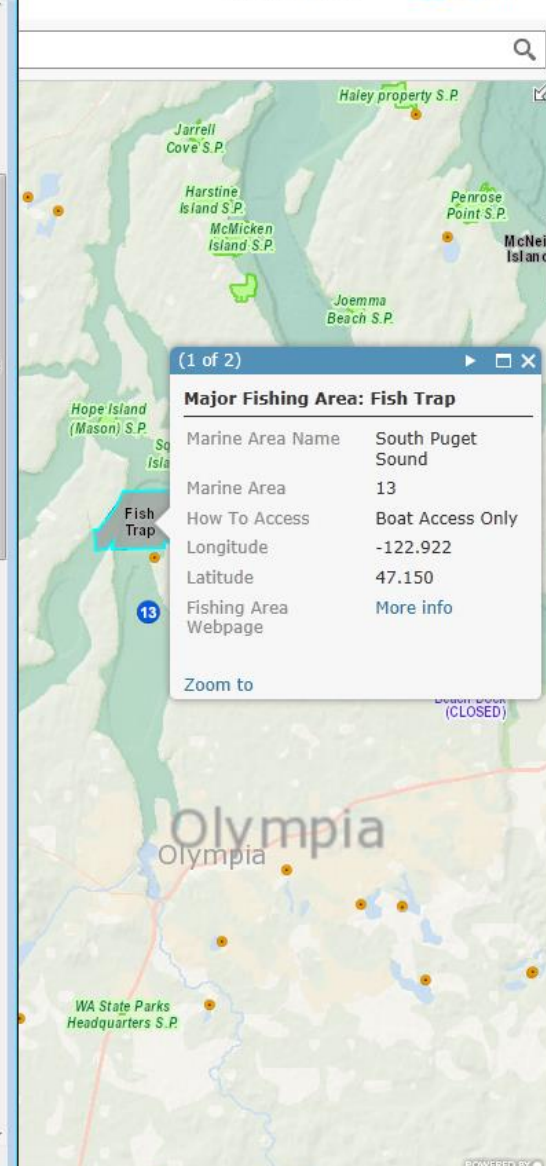

Species
 Coho salmon

Fishing Prospects Calendar

LEGEND

Fishing Expectation: Green (Excellent), Yellow (Good), Orange (Fair), Red (Poor)
